

Vacancy: Lead Web Designer
Closing Date: 29 February 2008

Overview

The primary role for our Lead Web Designer is to conceive, design and build exceptional graphic user interfaces for our online applications.

This is a senior client-facing role so you will have proven account management skills and a track record of self-direction.

Responsibilities

- Design Graphical User Interfaces for web and Flash/Flex-based, rich-media applications.
- Apply usability principles and best practice design to enhance end user experience of the web interface.
- Present and communicate design concepts to clients.

Requirements

- 2-3 years professional work experience as a UI / Web Designer.
- College diploma or university degree in either graphic design, computer science or related field of study.
- Experience in designing and developing professional online applications and web sites (compelling portfolio a must).
- Knowledge of Photoshop, Dreamweaver, Flash, etc. required. Experience with Flash / Actionscript will be seen as a distinct advantage.
- Excellent written, verbal communication and presentation skills with the ability to present ideas in business-friendly language.
- Strong analytical skills and a high level of attention to detail.
- Experience in usability analysis.
- Experience working in a team-oriented, collaborative environment.

**Package**

EUR 40,000 – EUR 45,000 per annum, depending on experience.
Performance bonus & group pension scheme.

Closing Date

Please send an up-to-date CV to sean@xwerx.com before 5pm on Friday, 29th February 2008.

Company Description

Xwerx Media Limited has been in operation since November 2000.

The company delivers solutions that improve the online user experience.

We are committed to a best-practice, standards-based approach and like to prove that our solutions provide an excellent return on investment.

We work for public and private sector clients in the following areas -

User-Centred Multimedia Production

- GUI Design for online applications
- Database-driven websites built to the XHTML / CSS standard, including e-commerce development.
- Flash-based, rich-media tools.
- Online Content Management / Back-Office Systems

Usability Consultancy

- Expert Reviews
- User Testing
- Statistical Analysis

The company is located in The Digital Depot, part of The Digital Hub area, a government-based enterprise development area for companies involved in Digital Media. The Digital Depot is centrally located on Thomas Street, 8 minutes from Christchurch in Dublin's city centre.
